The Lymphoma Research Foundation (LRF)

is the nation's largest non-profit organization devoted to funding innovative lymphoma research and providing people with lymphoma and healthcare professionals with up-to-date education about this type of cancer. The LRF mission is to eradicate lymphoma and serve those touched by this disease.

The Foundation invests millions of dollars every year to combat lymphoma and assist those whose lives have been affected by a lymphoma diagnosis. LRF is dedicated to identifying a cure through an aggressively-funded research program and to helping members of the lymphoma community by providing comprehensive, disease-specific programs and services.

The Foundation is supported by more than 10,000 volunteers who contribute their time and talents to further the LRF mission and serve their local communities.

LRF has earned the trust of the individuals, private foundations, public companies and organizations that fund its work by demonstrating a history of careful and proven financial stewardship. LRF has been awarded the Independent Charities Seal of Excellence, and is a Better Business Bureau Accredited Charity.
